

Sophie Ellis-Bextor, The Earth Shook The Devil's

The sign said underground
The train went over land
They threw my body down
It felt too good to make a stand
The earth shook the devils hand

Went along for the ride
I'm aware of the plans
Underneath inside
I have to satisfy my man
The earth shook the devils hand

And oh she was intense
Every movement grand
The passion was immense
I swear i felt my soul expand
The earth shook the devils hand

The earth shook the devil's hand
The earth shook the devil's hand

That night it dawned on me
Just how good it really can be

I won't forget that night
It made me who i am
The darkness took the light
It felt too good to give a damn
The sign said underground
The train went over land
They threw my body down
It felt too good to make a stand

The earth shook the devil's hand
The earth shook the devil's hand
The earth shook the devil's hand
