

Sophie Francis, Weekend Love

talking about thons going nowhere
baby, let's make a deal
if we can't find anywhere out there
will you come around for that weekend love?

we were never friends on a Monday
this was never love for real
but if you hate being alone on Sunday
than you come around for that weekend love

I wanna kno if there;s nobody when the lights come on
I wanna know will you come find me when the lights go off?
will you come around for that weekend love
will you find me when the lights go off?
