

# Sophie Zelmani, Once

Hey you  
can I breathe  
if my chest is covered  
Hey you  
is my face making sense  
Eyes can't be still  
in a moment so tense  
Here babe  
are the notes you must play  
This babe, is the procedure  
Here babe  
not in another way  
I can assure you  
that you will be okey  
Once would do  
once could change everything  
Once could tell  
and help me clear out  
some things  
Once would make  
no difference at all  
Once or not  
I've already made this fall  
Hey you  
make the most of the time  
You've got to cross many borders  
If you can't control your mind  
something will happen  
it's just a question of time  
Oh babe  
I can not concentrate  
I'm here for the wrong reason  
It's you who makes my knees shake  
One season, then  
the brakes're gonna break
