

# Sos, Circulate

--- Harold Faltermeyer, Chris Thompson

--- Soundtrack for "Fire, Ice and Dynamite" 1990

You gotta breakout

You're out in the world out there

Impossible dreams can take you where

Ooh, You can win it all

Sneak out, it's the way you feel

Reaching up to make it real

Ooh, Together we can win it all

No more running in a golden cage

There's only one way you're gonna go from pain

(Chorus)

Ooh you gotta breakout now

You gotta breakout now

You gotta breakout - you're taking on the world

Ooh you gotta breakout now

You gotta breakout

The fools still shake out

You're taking on the world

Ooh you gotta breakout now

You gotta breakout now

You gotta breakout

You're taking on the world

Ooh you gotta breakout

The fools still shake out

Gotta breakout

You're taking on the world

Taking on the world tonight

Like a cat on a hot tin roof

It don't take long to see the truth

You can do anything you want to

Push it to the limit don't ever stop

There's only one way you're gonna get on top

Chorus

Instrumental

Taking on the world

Breakout now

Breakout now

You're taking on the world

Breakout now (breakout now)

Breakout now (breakout now)

You're taking on the world

No more living under the gun

There's only one way you're gonna get on top

Chorus and fade
