

# Soul Asylum, You'll Live For Now

Some people ain't got no choice

But we do

Some people ain't got no voice

But we do

And if you don't wanna live, if you don't want to live I'll live for you

And if you don't wanna live, if you don't want to live I'll live for you

I would do anything just to get my mind off it

I would do anything just to get my mind off it

Some people got no chance

But we do

Some people don't like to dance

But we do

And if you don't wanna live, if you don't want to live I'll live for you

And if you don't wanna live, if you don't want to live I'll live for you

I would do anything just to get my mind off it

I would do anything just to get my mind off it
