

Soul Coughing, Sugar Free Jazz

Normalize the signal and you're banging on freon
Paleolithic eon
Put the fake goatee on

And it booms as cool as
Sugar free jazz
Schools he bombs, he bombs

Stack wax lie like a placemat
Won't lap
Or help you at the automat

And it's clear and clean as
Sugar free jazz
Schools he bombs, he bombs

Fossilize apostle and I comb it with a rake
You can't escape
You pull out the brake

And it booms as cool as
Sugar free jazz
