

Soulfly, Enemy Ghost

You are the enemy
You are the enemy ghost
Unleash within
I turn your soul to dust
You are the enemy
You are the enemy ghost
The oath is broken
I'll take and crush your world

You are the enemy
You are the enemy ghost
Descalre war
I turn your soul to stone
You are the enemy
You are the enemy ghost
The fear killer
I fucking stand alone

I'm calling all the spirits
In this ritual killing
I'm calling all the spirits
Rise above and rise within

I'm calling all the spirits
In darkness we scream
I'm calling all the spirits
Rise above and rise within

I'm calling all the spirits
Killing instincts
I'm calling all the spirits
Rise above and rise within

I'm calling all the spirits
Sacrifice all things
I'm calling all the spirits
Rise above and rise within

You are the enemy
You are the enemy ghost
In desolation
But we're never alone
You are the enemy
You are the enemy ghost
The world is exploding
Their souls are burning...
