

# Soulsister, Ain't That Simple

Think I'll take a walk  
And maybe it'll clear my head  
Lord I'm so confused maybe  
I'll just stay here in bed  
'Cause I like when you invite  
Your friends around  
And I like it when we spend  
The night on the town  
I even like it when we're  
Caught in a crowd  
I don't know why but I can't decide  
I just want to treat you right  
But it ain't that simple  
Every choice is hard to make  
Baby ain't that simple  
Hey Hey Hey  
Since everything is  
Comin' our way  
Funny things start happening  
Honey, when I see your face  
A chemical reaction hits me  
And I can't think straight  
And I don't care if you  
Want a weekend in Rome  
And I don't care if you  
Feel like staying at home  
I'm even happy when we  
Talk on the phone  
I don't know why but I can't decide  
I just want to treat you right  
But it ain't that simple  
Every choice is hard to make  
Baby ain't that simple  
Hey Hey Hey  
Since everything is  
Coming our way  
'Cause I love you  
Girl, I need you  
And I don't care if you  
Feel like hangin' around  
I don't care if you  
Want a night on the town  
And lately I don't know  
What's up from what's down  
I don't know why but I can't decide  
I just want to treat you right
