

# Soundtrack - Step up, You must be

When I'm with you  
You know you make my days so beautiful  
With your different ways  
You make me lighter  
I'm movin with the wind  
Love, you know  
What you got for me I've got for you too  
We can't pretend  
Give me another chance to breathe  
And you got all these things I need  
And together we're just so complete  
You must be the reason I'm alive  
Give me another chance to breathe  
And you got all these things I need  
And together we're just so complete  
You must be the reason I'm alive  
Put it on me  
It's all so new  
It's so familiar  
Everytime I'm next to you  
I feel something like whatever  
Yes, that's right  
Come on and talk to me  
... love all over me  
Give me another chance to breathe  
And you got all these things I need  
And together we're just so complete  
You must be the reason I'm alive  
Give me another chance to breathe  
And you got all these things I need  
And together we're just so complete  
You must be the reason I'm alive  
Give me another chance to breathe  
And you got all these things I need  
And together we're just so complete  
You must be the reason I'm alive  
Give me another chance to breathe  
And you got all these things I need  
And together we're just so complete  
All this time  
I've been looking for someone like you  
I never really thought you'd existed  
Now I see my dreams are all coming true  
I just want to stay right here with you  
You say  
'I might ... for the birth of your new eyes'  
And I say  
'It's like the sun, bright and lightening my skies'  
today we got together to create a new world  
And you gotta real make understand the gift of this girl  
Bells are ringing  
'Cause what you've bringing is got me singing  
Now I can do it  
You're all I need  
love is the reason  
Spring is the season  
I'm feeling so alive inside  
And you've must be the reason  
All this time  
I've been looking for someone like you  
I never really thought you'd existed  
Now I see my dreams are all coming true  
I just want to stay right here with you  
Give me another chance to breathe

And you got all this things I needen  
And together we're just so complete  
You must be the reason I'm alive  
Give me another chance to breathe  
And you got all this things I needen  
And together we're just so complete  
You must be the reason I'm alive  
Give me another chance to breathe  
and you got all this things i needen  
and together we're just so complete  
you must be the reason i'm alive  
I feel so alive with you  
I feel so alive with you  
i feel so alive with you
