

South Park, Rainbow - Ween

Many colors in the homo rainbow
Don't be afraid to let your colors shine
Many colors in the homo rainbow
Show me yours, I'm gonna show you mine

If you find your pot of gold
Then every little thing is gonna work out fine
In the homo rainbow

Many colors in the homo rainbow
Many different shades from black to yellow
Many colors in the homo rainbow
A warm embrace and a kind "Hello!"

If you find your pot of gold
Then every little thing is gonna work out fine
In the homo rainbow

Something something something
From the golden shores of Kansas
To the middle of Japan
Reach around your soul
and love your fellow man

Many colors in the homo rainbow
Don't be afraid to let your colors shine
Don't be ashamed of what God made you
