

# South, Shallow

Are you biting your tongue  
Or riding on your tights?  
It's hard to discern  
If it's just a state of mind  
All these second chances get another problem off your chest  
Know not where you go or where you've been

Give into love it's the one thing we have  
Hold out your laugh, see the beauty within  
I know the way that you won't make a fuss  
Don't mean there's no pain

So they say,  
There must be more to life than this  
No mistaking happiness  
There is more to life this  
Through the days and nights we drift

Are you biding your time? or sinking in the shallows?  
It's hard to describe, I might never know  
Always heard you've got shit for brains  
Move your body in a thousand ways  
I know it's in your nature to explore

Give into love it's the one thing we have  
Hold out your laugh, see the beauty within  
I know the way that you won't make a fuss  
Don't mean there's no pain

So they say,  
There must be more to life than this  
That's what you say  
No mistaking happiness  
There is more to life this  
Through the days and nights we drift

In the distant fantasy  
There will be no place for us

I heard you say  
There must be more to life than this  
That's what you say  
No mistaking happiness  
There is more to life than this
