

Southern, Cool Kid

He don't wanna release her
And she don't wanna kiss him in the kitchen
Someone keeps telling me that I'm not good
I wanna come back to come back home
But I'm not like you anymore

'Cause she's a cool kid lost and found
She's better when she comes and it tried me down
Such a cool kid lost and found
And she better keep swelling to you

She said explain it in my brain
Good takin' out someday
'Cause she's better explain it in my brain
Good takin' out someday
I wanna come back to come back home
But it's not like that anymore
'Cause she's a cool kid lost and found
She's better when she comes and it tries me down
Such a cool kid lost and found
And she better keep swelling to you

I said the rest in
I said the rest in
Cause she dies the way I feel
And now I know
That she dies the way I feel

'Cause she's a cool kid lost and found
She's better when se comes and it tried me down
Such a cool kid lost and found
And she better kepp swelling to you
And I don't wanna come back now
Please don't make me come back with you
And I don't wanna come back now
Please don't make me come back with you
