SOXSO, NOISE WASH

I remember the day when he came to my room And I saw the rain everywhere He said that he wouldn't cry a lot But I saw all his tears inside his heart I was so unprepared And I just had to paint my mind

Why are you like drugs? I swallow you and immediately die

I created my own world when he left me there And I should, I should stay intact It's not so simple when fight is so boring that you want to fall So now, where's the new land?

Why are you like drugs? I swallow you and immediately die

Can you imagine how we could wash your noise I still hear your voice: "Noise wash, noise wash" Can you imagine how we could wash your noise I still hear your voice: "No, no, no, noise wash" /2x

Why are you like drugs? I swallow you and immediately die Why are you like drugs?
