

Space, Avenging Angels

Calling all avenging angels
Vengeance you know it tastes so good
vengeance is as cold as ice
When it has you in it's sights
When it has you in it's sights

Calling all avenging angels (angels, kick ass angels)
Calling all avenging angels (angels, kick ass angels)

You could give a call to Scotland yard
Or send for help from the FBI
But they wouldn't stop a bomb going off
With only seconds on the clock

Calling all avenging angels (angels, kick ass angels)
Calling all avenging angels (angels, kick ass angels)

Angel, oh angel
Here to brighten my darkest day
Take me in your arms
Protect me from my enemies (enemies)
Oh deadly angel, Oh angel
And when they've got me on my knees
And when they're just about to do the deadly deed
You rescue me, rescue me, rescue me!
