

Spacehog, And It Is

Oh... lets go!
I wasn't perfect in the past one's eyes
You say you love me and I don't ask why
Cause now I know
Now I know

Two fools in love
Just in love with love
The sky is wide and the stars are up
And now I know, now I know

Chorus:
And it is, and it is
It's all wrapped up in you and I
And it is, yes it is
The universe is yours and mine

I love the bad luck that she brings me
I love the cheap songs that she sings
That's why I know
Now I know

Playing with hearts in the beat of love
We going down to the rhythm of love
It's why I know
Now I know

(Chorus)

Dreaming my shallow life away from me
All my life
Seems that the truth is hard to find these days
I'll survive

Cause it is, yes it is
It's all wrapped up in you and I
And it is, yes it is,
The universe is your and mine

(Chorus)

And it is, and it is, and it is
