

# Spacehog, Goodbye Violet Race

Goodbye Violet Race... I still love you  
Goodbye Violet Race... I still care about you  
Fear no more, for here lies  
The body of Violet Race  
She lay with all the dead rocks and indigenous remains  
What happened to the place she used to know?  
What happened to the love she used to show?  
Goodbye Violet Race... I still love you  
Goodbye Violet Race... I still care about you  
And even though she's dead and gone, she'll always be adored  
Her life she lost although she won a prize for being a whore  
But I guess you'll never know how far to go  
But I guess she'll never know, she'll never know, she'll never know  
Goodbye Violet Race... I still love you  
Goodbye Violet Race... I still care about you  
Goodbye Violet Race... I still want you
