

# Spacehog, Only A Few

Can't decide why all of my confidence  
Is left high and dry all over and out  
The truth should be known for all of it's consequence  
Hangs in the balance and shadows my doubt

## CHORUS

There's only a few like you  
There's only one I to compromise  
There's only a few who do  
Big boys don't cry

So take me away from this loneliness  
facing the shadows and hiding the lights  
Truth should be known without which I'm all alone  
Lost between this world and hiding from life

## CHORUS

And when I get there I will find you
