

Spacehog, Space Is The Place

And when you kiss your other lover
Well I will try to understand
And just because you're f*cking him
It doesn't mean you don't love me
I do what you want
Be what you wanna be

Space is the place where I will go
When I am all alone and
When nobody calls me on the phone and
I am all alone and
I'm meditating in the zone
All alone and
Space is the place where I will go
Space is the place

And just because you kissed your brother
It doesn't mean to say you're gay
'Cause even when you're f*cking him
It doesn't mean you don't love me
I do what you want
Be what you wanna be

Space is the place where I will go
When I am all alone and
When nobody calls me on the phone and
I am all alone and
I'm meditating in the zone
All alone and
Space is the place where I will go
Space is the...

Ahhhh
Space is the place where I will go
When I am all alone and
When nobody calls me on the phone and
I am all alone and
I'm meditating in the zone
All alone and
Space is the place where I will go
Space is the place

Space is the place, in your face
Space is the place, in your face
Space is the place, in your face
Space is the place, in your face

Space is the place
Space is the place
Space is the place (oi, oi, oi, oi...)
Space is the place
