

# Spacehog, Spacehog

Well I'm standing on the launch pad  
Looking at the stars.  
I'm waiting for the countdown to begin  
I'm not sure where I'm going  
No, I've no way of knowing

## CHORUS

But when the signal comes  
It's 5, 4, 3, 2, 1!  
Baby I'm a Spacehog  
a Spacehog, a Spacehog, a Spacehog

Well now I see the moon  
We got here oh so soon  
The earth looks very different from up here  
I'm picking up strange signals  
I hope I'll be okay

## CHORUS
