

# Spain, Before It All Went Wrong

There must be a way  
To feel like I used to feel before  
Before it all went wrong  
Before I thought that love  
Could never be  
Before I felt your body  
Next to me  
There must be a way  
To get back to where we were before  
Before it all went wrong  
Before I thought that love  
Could never be  
Before I felt your body  
Next to me
