

Spain, It's All Over

It's all over now
He knew from the start
It was in the way
She walked and the way she moved
It's all over now
She told him somehow
It was in the way
She softly turned her head
It's all over now
And now she's free
Free to find another love
It's all over now
And when shes alone
She remembers her first love
From so long ago
It's all over now
How she thinks of him
And of what it would be like
If he were to call
It's all over now
And now shes free
Free to find another love
