

Spain, Make Your Body Move

Two o'clock
You're all alone
Starting from across the room
Come right here
Girl you know
Just what our love can do
We don't have
To take it slow
Talking all the whole night through
I just want
To take you home
And make your body move
Make your body move
Girl you'll feel
Your loneliness
Drifting away from you
And you'll see
This love exists
We found a love so true
Now we have
Happiness
It's what our love will prove
I just want
To kiss your lips
And make your body move
