Spain, Wold Of Blue

Walked away released from all my crimes Walked away released from all my crimes But I could never hide what I kept inside Walked away released from all my sins Walked away released from all my sins But the cruelest thing was all my suffering When I held you that night, I knew it felt so right I knew it felt so right Walked away released from all my crimes Walked away released from all my crimes But I could never hide what I kept inside
