

Sparkle, All I Want

[Intro]

Oh, oh

Hey, whassup?

Yeah, it's me, whatchu doin'?

I'm just here by myself, that's all

You know what you need to do

You need to get up and get over here

Right now

Another lonely night again, all alone by myself

Layin' in this empty room, kinda dark, kinda cold

I need someone to lay with me, hold me tight all night long

Take away this emptiness and fill it up with some romance

Chorus

All I really want is someone to love me down

All I really want is someone to come around

All I really want is someone between my sheets

All I really want is someone here lovin' me

Don't wanna talk no more, just get right down to it

Put it on, that way no need to stop again

Just wanna feel your body deep, like deep inside

Before you get yours, be sure that I get mine

A couple times

All that I been thinking 'bout

Is you on top of me

All that I been dreamin' 'bout

Is you here lovin' me

Chorus

I just can't believe the way you're makin' me feel

My body's shakin', skakin', I just can't keep still

And when you're talkin' dirty, sounds so good to me

It's such a burnin' bed you'll see

Because you're giving me what I need

Chorus

Round and round we go, go, go

Up and down, real slow, slow, slow

Ooh it feels so right, right, right

We'll be up in here all night, night, night

Chorus x2
