Sparks, Bullet Train

It's the bullet train, bullet train, bullet train, yeah
It's a miracle, a miracle, a miracle, yeah
It's the bullet train, bullet train, bullet train, yeah
It's immaculate, immaculate, immaculate, yeah

It's improbable, improbable, improbable, yeah
It's the bullet train, bullet train, bullet train, yeah
It's impeccable, impeccable, impeccable, yeah
It's the bullet train, bullet train, bullet train, yeah

It's the bullet train, faster and faster, oh yeah
It's the bullet train, faster and faster, oh yeah
It's the bullet train, faster and faster, oh yeah
It's the bullet train, faster and faster, oh yeah

Can't we work this out between us, can't we work it all out
Can't we work this out, work this out, work it all out
I should learn from those around us to be more round about
Can't we come to some solution, can't we work this all out
And to the right, Fuji, Mt. Fuji, oh wow
Yes, to the right, the rarest sight, Mr. Fuji, oh wow

We can count ourselves lucky, oh so lucky, oh wow
It's the rarest sight, Fuji, not hidden by clouds
If you're gonna cry, better wait, do it at home
It you're gonna cry, gonna cry, do it at home
On the bullet train, nobody, nobody cries
No one's ever cried, never, on the bullet train, no

It's the bullet train, bullet train, bullet train, yeah
It's a miracle, a miracle, a miracle, yeah
It's the bullet train, bullet train, bullet train, yeah
It's immaculate, immaculate, immaculate, yeah

It's improbable, improbable, improbable, yeah
It's the bullet train, bullet train, bullet train, yeah
It's impeccable, impeccable, impeccable, yeah
It's the bullet train, bullet train, bullet train, yeah

It's a testament, a testament to science and art
It's a testament, a testament, to who that we are
It's a monument, a monument, to science and art

It's a monument, a monument to who that we are
It's proficiency, proficiency, proficiency, yeah
It's efficiency, efficiency, efficiency, yeah
How the fabric and the finish and the glass intersect

It's the bullet train, bullet train, so what's next?
