

# Sparks, The Decline And Fall Of Me

Now I stutter, now I dribble  
Other than that, I'm lots like I was then  
The decline and fall of me

I just shaved my nose off, oh well  
Other than that, I'm lots like I was then  
The decline and fall of me

If I had a hammer I would drop it and break it  
Look at the pieces  
Now I've got a hobby, I collect frozen pizzas  
Check out my pizzas

Now your jokes seem really funny  
Other than that, I'm lots like I was then  
The decline and fall of me

Where's my mouth, man, this eating is rough on the shirts  
Gee, I'm sorry about the thermometer, nurse  
Would you tell me again, which are girls, which are guys  
Gee, I thought that this finger meant so long, goodbye

Chart position, bubbling under, drowning  
And goodbye future Mrs. Mael, Mael  
The decline and fall, decline and fall, decline and fall of me

I'm fading away  
I'm fading away  
I'm fading away
