

# Sparks The Rescue, We Love Like Vampires

You move through my body like an ocean  
Didn't take you long to get to my heart  
I stood on your porch in the commotion  
Of the bustling city and its busy heart  
Well I sat in your room and played my six string  
Laid back and stared up at your ceiling  
Well your hair looked so good over my shoulder  
Were getting older, time has no hold on me  
But she's got control over me  
Tonight has lasted long enough  
The sun is coming  
From dusk till dawn we tear it up  
The sun is coming out  
I just want to hear your sounds  
We love like vampires  
You'll be lost and never found  
Dancing the underground  
I think that I've lost all of my feelings  
No, I think it's you that last all of the meaning  
When the world turned around and around yeah  
The love that we found has gone drifting away  
She's always drifting away  
Tonight has lasted long enough  
The sun is coming  
From dusk till dawn we tear it up  
The sun is coming out  
I just want to hear your sounds  
We love like vampires  
You'll be lost and never found  
Dancing the underground  
You know I said you never  
You know I said  
You know I say it so well  
You know I said you never fight fair  
You're always jumping on my back  
You bit my neck like a bad habit,  
Yeah now it's all coming back
