

# Sparta, Atlas

Well I loved this town like you did  
I'll burn it to the ground  
Packed your things and then  
You were gone  
Called a new place home

Like you do  
And you'll never change

Well I got a feeling inside  
It's going to happen again  
There's a fire deep in your eyes  
They've never seen before

Like you do  
And you'll never change

More than lights expose  
Who you are
