

Sparta, Erase It Again

You put your fist in the ground
You went from quiet to loud
You found you're broken in half, today
You set a fire to forget
To burn up all you regret
But really nothing has changed, today
You can't go on this way
You can't move on

Erase it start it again
Accidents happen
But these cuts don't scar
Erase and start it again
Mistakes dig in
And you've gone too far

You find you're living in fear
You've been dying for years
You hit the end of the road, today
Condemned but couldn't understand
You tried but pride held you back
Your eyes are open again, today
You can't go on this way
You can't move on
