

Spearhead, Thank You

When I was a younger man
people say don't dream to tall
'cause if you live your life this way
you set yourself up for big falls
I stay up late in my room at night
play my heroes on my turntable
opened me to pure phat groove
help my soul break down them walls

(chorus)
I thank you
I thank you for all the music that you've shown to me
I thank you
' cause you set me free
free to simply just be me

You don't know
all the influence
the subtle positives
that you had on me
came about like a renaissance
like a little happy dance
got into my feet
but in your time
the roads you chose
led you to your hard luck blues
I always feared what it was like
to live inside your big old shoes
(chorus)

Do ya love music? I do
Do ya love music? I do

Michael Franti And Spearhead Lyrics
