

Specimen, Hex

Hex

It's an "X";

Put the "X"; back into Hex

Sex

Put the "X"; back into Hex

Hex

Joshua

You can never love a civilian

You can never never never learn

Or we will cut a piece from your very hand

I sure look around to sex

Put an "X"; to whatever's next

(Your a sheet thief)

But I say

Pleasure springs from the leave

Seems like some people ignite from everywhere (uh-huh)

And don't give a crack jack

That's what you call a friend

That's what you call a friend

You sit in space (woah)

A beautiful waste (ooh)

You fall on your face

'Cause you think I'm nothing

Nothing can make you remember

One thing will make you forget

We live with obsessions like these

We take them into our hearts

Holy hearts hope they never leave

Oh how can we ever let them breath

Hex

Whatever's next

He's feeling fexed

(He touched me in my sleep,

but it's not over yet)

You can never love a civilian

You can never never never learn

(Oh, we're all going to burn!)

And you just drew the longest fuse

You sit in space

A beautiful waste

You fall on your face cuz you think I'm nothing

Nothing can make you remember

One thing will make you forget

The feel of your fall

In love and war

I feel no more

Feel no more

Expect no more

Expect no more

Sex

Put the "X"; back into sex.

Hex! Whatever's next
He's feeling fexed
(He touched me in my sleep,
but it's not over yet)

You can never love a civilian
You can never never never learn
(Oh, we're all going to burn!)

And you just drew the longest fuse

You sit in space
A beautiful waste
You fall on your face
'Cause you think I'm nothing

Nothing can make you remember
One thing will make you forget
The feel of your fall
In love and war

Take the "H" from ache
And the "E" is between
Put the "X" back into hex
Take the "Xual" from sexual,
And the E is wet
But the "X" gets buried alive
Take the "H" from ache
and the "E" is between
Put the "T" back into rex
"X" back into
"X" back into
"X" back into
(Oh-woah, woah, woah, woah, oh)
