Take me home (Argentine Bonustrack)

Album: Spice

There's no place I call height,  
There's no way in a mean street  
There's no high, low or medium,  
There's no little be  
So do your searching,  
until you're down,  
Then realise, your on  
your home ground  
Sitting in a while room,  
dreaming of life  
You have got me thinking,  
what is paradise  
Should I take an ocean drive,  
cooling from the sun  
Still the scream got me thinking  
this is now If should be done

(Chrous:)

Take me home, there's no place  
I'd rather be now, yeah!  
Take me home, there's no place  
I'd rather be now, yeah!  
Stand together alone,  
not knowing who you are  
Friendly Strangely,  
Strangely Friendly  
would you keep me warm?  
would you keep me warm?  
You now, you could be your paradise  
Talk and keep me warm,  
you could have you're own dream life  
Step into your comfort side,  
Comfort side...

(Chrous:)

There nobody to take me ome,  
'cos I'm here, yes where I belong  
I'm nearly, 'cos I'm on my way,  
At my home It will always stay  
There nobody to take me home,  
'cause I'm here, yes where I belong  
I'm nearly, 'cos I'm on my way,  
At my home It will always stay  
So all that's free falling  
falls, hangs, out of time  
You've got yours, I've got mine,  
Should all this be so precious?  
Maybe I should be a little humble?  
Slate of fear, 'cause I could stumble  
So do your searching,  
until you're down  
'cos your on home ground
