

Spiderbait, Jasper

I was trying to remember
Why we used to say "Hello"
Even though I never liked you anyway

You were always there to shit me
And you really did annoy me
Don't invite me to your party Saturday

I'll go anyway!

Do you miss me are you
Happy now you don't see me around
Does it feel like you're the man you are again

I've been trying to remember
Why we used to say "Hello"
Even though it doesn't matter anyway

I still wanna stay
