

Spike Jones, That's What Makes The World Go Round

I like holding hands,
When it's with you.
That's what makes our world go round,
And round, and round, and round,
When I'm around you.
You like to be kissed,
And I do to.
That's what makes our world go round,
And round, and round, and round,
When I'm around you.
We're so agreeable,
We know what we're both thinking of.
It's killing, so thrilling,
We're willing to love.
Things we've done before,
Always seem new.
That's what makes the world go round,
And round, and round, and round,
When I'm around you.
