

Spin Doctors, More Than She Knows

I know she got everything she wants
I know she got everything she needs
I know she needs me more than she knows
I know she got everything she wants
I know she got everything she needs
I know she needs me more than she knows
She come on so sweet and kind
I wonder if I'm on her mind
She always turns away
I know I'll get her...one of these days...
I know she got everything she wants
I know she got everything she needs
I know she needs me more than she knows
