

Spineshank, New Disease

Now I can take this, everything I know
Realize that I'm nothing I wanted to be
I can never change anything I've done
Because it's the only thing I have left

Blame myself again for what I didn't do
Never even knew it was coming from me
It changed the way I felt, the worst is yet to come
Because I have gone too far now

Nobody, nobody, nobody, nobody
Changed my mind
And it leads me to a new disease
Somebody, somebody, somebody, somebody
Let it die
But it still becomes a new disease

Is this all worth what this has done to me
Watered down my senses and turned them on me
Fuck morality and everything I know
If I didn't hate this then I couldn't cope
Impersonate myself for what I used to be
Denial is all that's left now

Nobody, nobody, nobody, nobody
Changed my mind
And it leads me to a new disease
Somebody, somebody, somebody, somebody
Let it die
But it still becomes a new disease

Nobody, nobody, nobody, nobody
Changed my mind
And it leads me to a new disease
Somebody, somebody, somebody, somebody
Let it die
But it still becomes a new disease

Seething in my head
I'm suffering instead
I can't remember why
This meant so much to me

Doubt
Did I ever want this
It's all I could've been, it's all I would've been

Doubt
Did I ever want this?
It's all I've ever been, it's all I'll ever be

Seething in my head
I'm suffering instead
I can't remember why
This meant so much to me

Nobody, nobody, nobody, nobody
Changed my mind
And it leads me to a new disease
Somebody, somebody, somebody, somebody
Let it die
But it still becomes a new disease

Nobody, nobody, nobody, nobody

Changed my mind
And it leads me to a new disease
Somebody, somebody, somebody, somebody
Let it die
But it still becomes a new disease

But it still becomes a new disease
But it still becomes a new disease
