

# Spineshank, Tear Me Down

You wear a cheap disguise  
Your only vice until the end  
Don't have an alibi  
You never try  
You just condemn

You pressure everything  
You never bring  
You take away  
I can no longer breathe  
You've taken me and everything too

(Far) To me it's so disgusting  
(Wrong) I push myself away  
(Far) My sanity is rusting  
(Wrong) I look the other way

This is a war I can't fight  
I can't let you tear me down  
I will ignore all these lies  
You will never tear me down

I sit and contemplate  
How you sedate what's in my head  
I will not instigate or emulate  
I won't pretend

You'll never understand  
You just demand to get your way  
How all of this began  
I never ran, and now it's gone too

(Far) To me it's so disgusting  
(Wrong) I push myself away  
(Far?) My sanity is rusting  
(Wrong) I look the other way

This is a war I can't fight  
I can't let you tear me down  
I will ignore all these lies  
You will never tear me down

This is a war I can't fight  
I can't let you tear me down  
I will ignore all these lies  
You will never tear me down

Never tear me down  
Never tear me

This is a war I can't fight  
I can't let you tear me down  
I will ignore all these lies  
You will never tear me down

This is a war I can't fight  
I can't let you tear me down  
I will ignore all these lies  
You will never tear me down

This is a war I can't fight  
I can't let you tear me down  
I will ignore all these lies  
You will never tear me down

Never tear me  
Never tear me down  
Never tear me  
Never tear me down
