

# Spiritfall, Nothing To This World

i remember when you told me "i want to be just like you"  
i remember when i told you "you can't be what i am"  
you're fading away you crash into me  
you're fucking up this world  
you're falling away you fall into me  
you're nothing to this world  
nothing  
i remember misbehaving degrading wanting to prove  
don't you recall my words that "you can't be what i am"  
to this world you're fading away  
to this world you fall into me  
to this world you're nothing to me  
to this world you're fading away  
you're nothing to me now you're nothing to this world  
you're nothing to this world
