

Spiritfall, What Happened To The First Time?

Verse 1

What happened to the first time, you left me in a hole
Your words are something that can hypnotize
I'm thinking that I want you, I want you to see through
What happened to the first time that I wanted to be with you?

Chorus

So why do you always take a part of me?
Search yourself find what you're looking for
Two can play and you losing the game
The time will come and I will leave you all alone

Verse 2

Now you start to crawl back, you're digging deeper down
You need to see the error of your ways
My heart is not an object, a thing you can beat down
Your promise is a mirror that you break when I'm around

Chorus

So why do you always take a part of me?
Search yourself find what you're looking for
Two can play and you losing the game
The time will come and I will leave you all alone

Bridge

I don't need your reasons, I don't need your mind,
My life is not your object, I thought you were mine
I fall, but I stand up, I am opening the door
Two can play at this game, but I don't care anymore
But I don't care anymore

Chorus

So why do you always take a part of me?
Search yourself find what you're looking for
Two can play and you losing the game
The time will come and I will leave you all alone, leave you all alone.
