

# Spiritfall, Without Words

You came to me without a warnin'  
I cannot explain it  
You're everything that I ever liked  
And you're the only one  
I see your face in the morning  
It's all I need  
A passion wrapped up in compassion  
And I feel it

Chorus:

Without words you hear my thoughts  
Your god touches my soul  
You're what I seem to feel I find  
When I fall

You run away but you can't hide it  
I cannot explain it  
I see all the things you've been missin'  
And i'm the only one  
You run away but you can't fight it  
I'm all you need  
Consumed by your fire  
And it's burnin'

(Chorus)

Self-entangling vision  
When I see your pain in your eyes  
I feel it rushing through me  
What'd you do to me?  
What'd you do to me?

(Chorus)
