

# Spirogyra, Don't Let It Get You

The facts of life are very simple  
A job some money, settle down  
There's lots of things that may distract you  
Ignore them, lest they do you harm

They say a dreamer always stumbles  
They say a dreamer has to fall  
Onto the rocks of what is solid  
Into the arms of what is all

Don't let it get you

My eyes were cracked my body broken  
My thoughts all bent my seam was torn  
Stood lost in space with no direction  
When suddenly I heard a call

Don't let it get you

What is this point of no returning  
Where I am standing with my friends  
There is no basis left for learning  
There is no start or end

Don't let it get you
