

Spirogyra, Grandad

Stuck in an old
Home for lonely folks
Gazing from his window at the snow
Where did you go so wrong?
You struggled all your life
To keep your children warm and safe
Make the world a better
World a better place

Stuck in an old
Home for lonely folks
Gazing from his window at the snow

Through two long wars
And many years of strife
What is the value of a life?

Men well oiled and functioning
Is science in control?
You're better off now where you are
I hope you rest
I hope you rest in peace
