

# Spirogyra, Grandad

Stuck in an old  
Home for lonely folks  
Gazing from his window at the snow  
Where did you go so wrong?  
You struggled all your life  
To keep your children warm and safe  
Make the world a better  
World a better place

Stuck in an old  
Home for lonely folks  
Gazing from his window at the snow

Through two long wars  
And many years of strife  
What is the value of a life?

Men well oiled and functioning  
Is science in control?  
You're better off now where you are  
I hope you rest  
I hope you rest in peace
