

# Spirogyra, Turn Again Lane

Turn again Lane, go back you, know she I-I-loved you  
Go back, that girl's in love with you  
Turn again Lane, go back you, know that you're gonna need her  
Go back go let her sun shine through  
You know that girls in love with you  
You know that girls in love with  
girls in love with, girls in love with you

Turn again lane go back you, know that you're gonna need her  
Go back go let her sun shine through  
You know that girl's in love with you  
You know that girls in love with  
girls in love with, girls in love with you

Want you to say that you'll give her all your love  
And so much more, and so much more  
Love in a way that a young man only can  
With so much more and so much more and so much more

Turn again lane you twit you, don't know what you missed you  
Sure ought to get yourself a brain  
Turn again lane, Turn again Lane, Turn Again lane

Knowing the way that she moves her sweater  
Down in the deep sea south  
She's the kind of girl that's got a lot to recommend her  
She aint no common mouth

I want you to say that you'll give her all your love  
And so much more and so much more  
Love in a way that a young man only can  
With so much more and so much more and so much more

Out here there's a lot that's unexplored  
My advice to you is go back home

"And if you are new here I must ask you sir  
Do you happen to carry a gun  
I discovered when young to trust no-one  
And to learn from mistakes I had made  
These are days of deceit and suspicion sir  
You must not take offence if I say  
That you look like a queer or a harbourer  
Of ladies of latter decay  
This part of the world is a dark one son  
We live by the laws we have made  
Though it's true we may harm in mistake sometimes  
We thank God for the lives we have saved  
We thank God for the lives we have saved  
So if you are new here I must ask you sir  
Will you kindly go back where you came  
I discovered when young to trust no-one  
And to learn from mistakes I had made  
And to learn from mistakes I had made"
