

Spirogyra, Where There's A Will There's A Way

Where there's a will there's a way
Where there's a will there's a way
There's a way, there's always a way
For where there's a will there's a way
Where there's a road there's a wheel
Where there's a road there's a wheel
There's a wheel, there's always a wheel
For where there's a will there's a way

Carving a valley, building a chalet by
Rivers and mountains, lacking in certainty
Trying to get happy
Trying to get part of the
Innermost circle
No time to turn around now

Where there is water there's a craft
Where there is water there's a craft
There's a craft, there's always a craft
For where there's a will there's a way
Where there is air there's a plane
Where there is air there's a plane
There's a plane, there's always a plane
For where there's a will there's a way

Carving a valley, building a chalet by
Rivers and mountains, lacking in certainty
Trying to get happy
Trying to get part of the
Innermost circle
No time to turn around now
There's a way
There's a way
We've got a long way to go
