

# Spitalfield, Am I Ready?

Hit that clock and step out of sleep

It's a brand new day

You've got someone to be and that someone is you (that someone is you)

When you do something, you give it full heart

You're right through the door with a running start

When you fall asleep tonight and you ask the question:

"Am I ready?"

Yes, you're ready

Would you pause the world for it?

Would you drop your life now?

"Am I ready?"

Yes, you're ready

If anyone can, I knew you could

You make that brand new shirt and tie look good

And I knew you would (I knew you could)

Don't ever say you'll never live the life you dreamt you'd lead

Lay me down
