

# Spitalfield, I Loved The Way She Said L.A

Say the things you say  
and you're dreaming like you do  
you know sometimes circles run around you  
hey now lets be honest, I really think its true  
you know sometimes we all bend the rules  
You run the life, you've been around, you love to live to hate this town  
And I hope and dream just like you do  
Yeah we've been here twice before  
You want it to mean so much more  
And I hope that everything goes through  
She goes to California, oh, Cali-fornia not so far  
when I close my eyes and wonder where you are  
And you wish upon a star  
Two thousand miles doesn't seem so far  
You play the games you play  
You win, sometimes you lose  
You know somwetimes walls run into you  
Now you've got me thinking, and I really think its true  
how sometimes sometimes just for you  
You run the life, you've been around, you love to live to hate this town  
And I hope and dream just like you do  
Yeah we've been here twice before  
You want it to mean so much more  
And I hope that everything goes through  
She goes to California, oh, Cali-fornia not so far  
when I close my eyes and wonder where you are  
And you wish upon a star  
Two thousand miles doesn't seem so far  
So far, so far, so far...
