

Spleen, Frozen Flower (piosenka na Eurowizja 2023)

Perfect time to realise we never meant
Counting every hour but nevertheless
It didn't make me feel right oh it made me feel pain
But do you think it's gonna heal or is it our fate?

Like frozen flower
We keep our flaws
And every season
There're getting worse

Like frozen flower
Our touch is cold
It's getting warmer
I have that hope

So we hope our hearts are not made of stone
Do you think we have to wait for the sun?

Probably we'll never know if that's the way
But is it necessary that it has to change?
And we already know we love it's silhouette
The frozen flower gonna stay here till the end
