

# Spleen United, Godspeed Into The Mainstream

Fade out with morning sun  
I take whatever you complete  
You take your orders from the sun  
And I take my orders as they come

Whatever you complete  
Whatever calms you down  
Whatever you believe  
Is whatever comes around  
Whatever you complete  
Whatever brings you down  
Whenever you should leave  
You always stay around

Fade out with morning sun  
I take whatever you complete  
Fade out with morning sun  
I take whatever you complete

Go with speed into my system  
I take whatever you complete  
Go with speed into the mainstream  
I take whatever you complete
