I lost my gold ring long ago long ago  
I lost my gold ring gold  
You're such a young girl wanna go?  
I want to go with such a young girl like you  
Across the mainland on my own on my own  
Across the mainland gold  
I lost my main pal long ago long ago  
I lost my main pal gold

I know my hardcore Mexico Mexico  
I know my hardcore gold  
I left my dream house long ago long ago  
I left my dream house gold

To crash in the soil and never get enough  
This is to me open fire love  
Open heart fire love

You've got your Sunday guarantees guaranteed  
You've got your Sundays free  
I've got my Friday enemies enemies  
I've got my Friday gold  
You've got your high class favorite vehicles  
You've got your high class gold  
That's such a white man way to go way to go  
For such an old man like you

To crash in the soil and never get enough  
This is to me open fire love  
Open heart fire love
